

## 10 Reasons Not to Miss CyberMaryland 2016

October 12, 2016 Business, cybersecurity Business, cyber hall of fame, cyber security, cybermaryland, cybersecurity, cyberkini, information technology Edit

For the sixth year, the **CyberMaryland Summit** continues to offer a unique cyber security information sharing venue. Designed to bring together cyber technologists, job-seekers, educators, government and industry leaders, the two-day event was created to encourage cyber professionals to share their skills and expertise, network with other professionals from the region and beyond, and seek collaborative ways to address the most critical challenges facing the nation's network security infrastructure.

Scheduled for October 20 and 21 at the Hilton Baltimore Hotel in Baltimore's Inner Harbor, CyberMaryland, a cyber conference, job fair, networking event and hall of fame dinner, will continue its mission to inform and educate hundreds of business, government and academic leaders.
